Comments on the remainder of the 2007 Budget Year

- Approximately 18-20% of our revenues normally occur in December, and another 18-20% in January
- A revenue shortfall for a budget year is often not visible until December
- We have budgeted a small surplus for 2007 in order to begin to rebuild our working capital position. The unbudgeted, but recently funded SMAA Foundation grants for certain capital projects and a portion of the Rector Search budget will also contribute to rebuilding our working capital position
- We are now beginning our 2008 budget process with budget presentations from all department heads.
- With the results of our stewardship campaign we will finalize the 2008 budget in January and present it to the Vestry for approval

General Related Comments

- As always, our budget performance depends on continuing diligent cost control and the realization of our expectations as to pledge fulfillment and other contributions within the Parish
- Our 2004 Independent Financial Audit is nearly completed and we intend to be up to date on the 2005 and 2006 audits during 2008.
- We have monthly meetings of the Finance Committee to go over our monthly financial statements and consider any other relevant financial matters
- Minutes of the Finance Committee meetings are available for your review on the SMAA website
- With the growth of the Parish we have become a very large, complex operation over which the Vestry has fiduciary responsibility
